Sickness Cure or Sickness Prevention

When Pasteur proved the relation of germs to infectious disease, he marked a big advance in that development of medical science which reigns today—the Idea of Sickness Prevention.

As a result, many plagues and epidemics that were the bane of former ages no longer terrify the world, and science has now developed an effective agent against the condition which is the first cause of over 90% of all human disease—constipation.

That effective agent is Nujol. Nujol by relieving constipation prevents the absorption of poisons which otherwise would be taken into the blood and so under-mine the whole system.

Leading medical authorities agree that pills, salts, castor oil, etc., simply force and weaken the system. But Nujol is entirely different.

Nujol prevents constipation by softening the food waste and encouraging the intestinal muscles to act naturally. Nujol helps nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

For valuable health booklet—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, N.Y.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark as shown here. Beware of products represented to be "the same as Nujol." You may suffer from imitations.
